

69 year-old Man

Selsey Wellbeing Services and Selsey Money Support

Person B was first known to the Selsey Care Shop in October 2020. B lives alone, struggles with mobility and has mental health issues.

We have worked with the local authorities to make the home more habitable and safer to live in.

This involved local traders to help with gardening, clearing, cleaning, rewiring and installing new heating to the property.

We have also referred B to Selsey Money Support for help with energy bills and to ensure that all relevant benefits are being received.
